

Board of Water and Sewer Commissioner's Meeting August 4, 2021

Present: Scott Zajkowski, Robert Sullivan, Jay Spahl, Tom Fournier, William Conley, George Patrinos, Brian Dorval, and Jennifer Cournoyer

Executive Session meeting opened at 7:50pm

Scott: This meeting is to review the Risk and Resilience Report that was created by Tighe and Bond. What is the purpose of this report and what must be done with it?

Brian: This report had to be created and certified with EPA. This report looks at the strengths and weaknesses of the safety and security of the Water Department. It is meant to be used to review and see what items need to be addressed. The theory behind this is to look at the areas of concern and fix the low-cost items and items that can be fixed.

George: We are already making changes and will be continuing to make changes.

A discussion occurred, each member will take the copy and review and notify George if they feel there is something that they would like addressed and see what the cost would be.

Tom made a motion to adjourn the meeting, Bob seconded the motion, a vote was taken, all in favor, passed unanimously.

Meeting adjourned at 8:06pm

Respectfully Submitted,
Jennifer Cournoyer, Administrative Assistant
